Brandon Town Council very kindly provided a grant of £500 towards our setting up costs. We also received a personal donation of £100 from a resident of Weeting. We are most grateful for all contributions. Our set up costs have included printing, stationery and supplies, the purchase of a domain name and website hosting. Please visit our website and if you have any suggestions or contributions such as historic articles and photographs, please let us know via the contact page.

We are excited to be working with a local business seeking office space in Brandon and we also hope to work with the new Breckland Landscape Partnership which could bring much needed funding into Brandon for the Brecks area in which we live.

If you would like to help with the Friends of Brandon Station (FOBS) and can assist with our social media presence, please get in touch. Now that our website is up and running, we would like some help with our Facebook, X (formerly Twitter), and Insta accounts.

Next steps include more administrative tasks, branding and printing plus discussions around securing the lease of the building from Greater Anglia. Finally, the biggest task of all, raising funds for the reinstatement of the station buildings.
